

EngBusters

a UW exclusive online myth discussion forum

TABLE OF CONTENTS

01 OUR GOAL

Our visions regarding the main issue

02 THE PRODUCT

Usable, reliable, and overall filled with potential

03 DEVELOPMENT PROCESS

Breakdown the tools used for each role of the development process

04 FUTURE PLANS

Next steps to improve usability, features, and scalability

01

Our Goal

Our visions regarding the main
issue

We wish to help clear the doubts of young engineers at the University of Waterloo and allow them to work in a better environment as they work towards their degree.

Our Goal

02

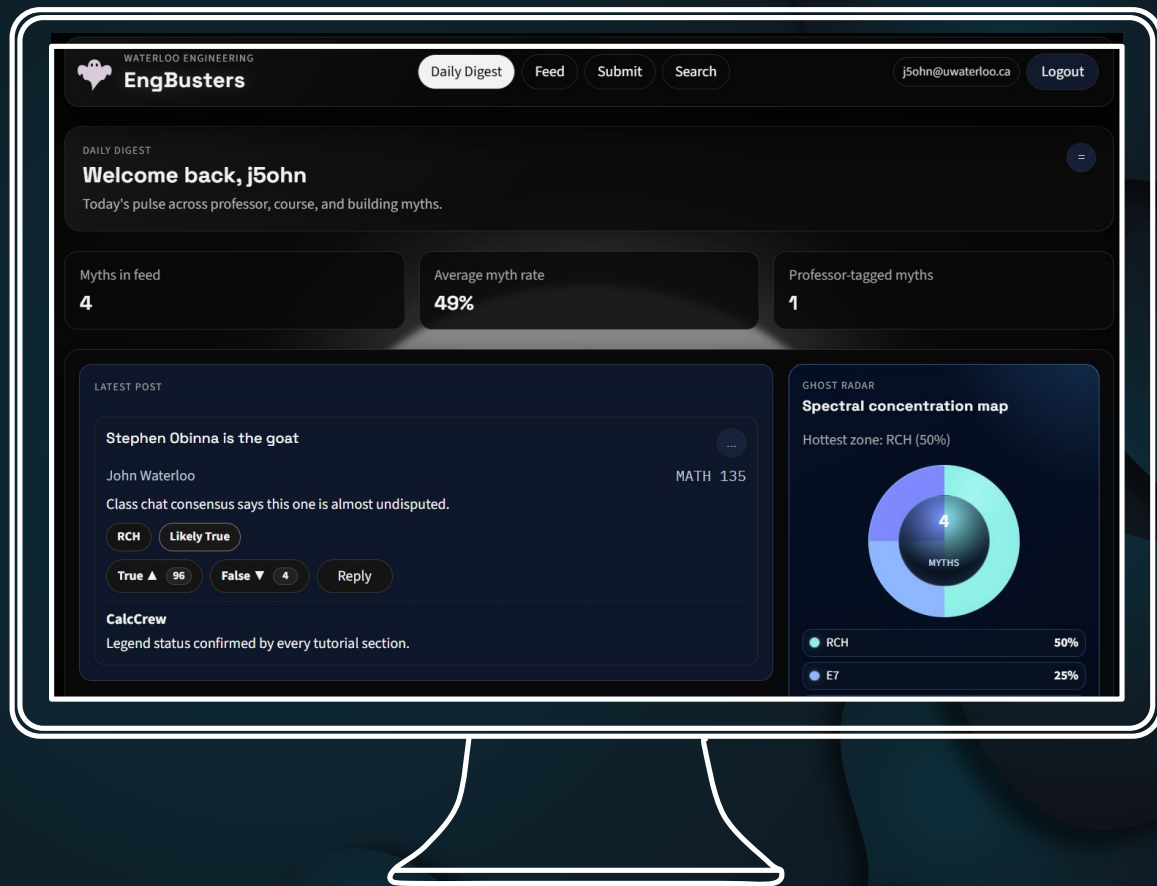

The Product

Usable, reliable, and overall
filled with potential

Introducing: EngBusters

a UW exclusive online engineering myth discussion forum for engineers to use as their main source for advices and fact checkings regarding their environment.

WATERLOO ENGINEERING

ENGBUSTERS

Crowd-verify engineering myths with votes, real student rationale, and fast discussion threads.

Pre-recorded demo

A quick peek at what the website offers in terms of functions and benefits.

<https://youtu.be/CzraDkB1zoo>

03

Development Process

Breakdown the tools used for each
role of the development process

Backend

Firebase with Typescript

Frontend

React with typescript,
CSS 3, HTML 5

**Tools used for
each layer**

Timeline

Frontend design

Brainstormed on paper, innovated to life

Backend development & Hook up

Intriguing ideas reinforced by RESTful API and Well-designed algorithms

Testing and Debugging

Performed thorough regression and integration testing to ensure functionalities

04

Future Plans

Next steps to improve usability,
features, and scalability

Moderation support

At this current state the website is effectively unmoderated, thus we will improve security features and prevent troll posts as soon as possible.

We'd also like to create more functions for moderating the website to give future moderators an easier time managing the posts.

We will contact UW IST Help Desk shortly so that the authentication remains truly UW-exclusive.
